MITCH'S CORNER

Dear Parents and Family,

I hope that everyone is fully back into the swing of the school year. Hopefully your kids are all bringing up the amazing things that they got to experience at camp this summer. As we are all getting ready for the upcoming holidays let us enjoy the fun and the traditions of these wonderful holidays and let us be kind and loving to everyone that is close to us. It is such a wonderful time of the year!

Our team has been working really hard since camp ended to get ready for the 2020 season. We never really have a down time as it takes a full "off season" to get things ready for the next summer. As always, we are continuing to improve our facility, staff and programs to give you the best possible summer experience. Get ready to read about all the exciting new things we have in store for 2020 in this newsletter! Just when you thought we couldn't do anything more we raise the bar once again!

A LETTER FROM

ODIE, MONICA & AUSTIN

As our team moves into our 14th year of running Camp Lindenmere it is amazing to me to see how far we have come, how big of an impact we have played in helping children grow into amazing human beings and being part of something that is not a job, but rather a way of life. Monica and I never lose sight of why we do what we do. We have had many of conversations during the summer where we are so exhausted, have dozens of emails and messages to attend to, dealing with staff issues, worried that the food delivery truck is running late, why hasn't the mail arrived yet, is the health center busy right

now, (the list goes on and on!) and just stop what we are doing to talk about something amazing that one of us just was part of or heard about. Literally in the back office (which I call the bullpen), this happens on a regular basis every day. Whether it is a first time camper that came from another camp and was bullied and told us this is the best time of his life, or a girl that has never really made a strong connection with friends at home and now has a bestie, or a parent (yes you change too!) that has let their bullied child out from under their watchful care for the first time to call us and let us know that she received a letter that her child is having the best time of their life. All of these things really matter, not only to us and our staff, but to our campers and parents. With the holidays coming up, and lot of time of reflection and family upon us, we wanted to thank everyone that is reading this for letting us have the opportunity to be part of something so special. Everyone has a choice of where they want to be, and you have chosen Lindenmere. Thank you and we will see you all very soon!!

Odie, Monica, and Austin

Dance Studios

We wanted to complete our remodeling of all of our existing buildings by giving the dance studios a major upgrade. We will be putting the knotty pine up (just like we have in all of the bunks) and equip it with new mirrors and sound systems for each side. Along with that we will be insulating and air conditioning the entire building with central air! We have listened to all of our dancers about the building being too hot, and we totally agree!!!

Ropes Course

Our ropes course is one of the more popular areas around camp. Each year we have been adding to the high elements but have yet to add to the climbing wall. Well we decided it was time to build a massive new climbing wall! It is going to be more than 50% bigger than the existing wall and have all of the bells and whistles, like repelling stations, internal stairs and so much more. As we plan this, we are looking toward the future to see how we can tie it into our existing course and possibly more zip lines. Get ready all of you highfliers!!!

Tee Pee Village

14 years ago we walked out in the woods and picked a spot that we thought was best to build an amphitheater setting. It is now time for this area to be completely re done. We are going to be removing all of the existing infrastructure and putting in a beautiful stone amphitheater. No more sitting on those old benches! You are going to have beautiful stamped concrete benches with lighting and decking area throughout. It is going to be a centerpiece of overnights, Friday night campfire, many department activities and so much more! Check out the latest drawings from our engineer!

Basketball Pavilion

Ever since we built the Lindendome most of our basketball activities have taken place there since it is covered and protects the court from both the rain and sun. We wanted to give one of our most popular sports more room for their periods and providing more covered space for other activities. We are going to be replacing the lower basketball courts with brand new courts, basketball hoops, bleachers, score board, AND putting a new pavilion over the entire thing!! This is going to give us a new 8000 square foot basketball complex for everyone to enjoy!! It is going to be connected to the circus pavilion as well giving that area additional coverage. There will be a porch area connecting the two together.

Fitness, Yoga and Spin Class Center

We have been wanting to upgrade our popular fitness program for a number of years but weren't exactly sure what we wanted to do. After listening to our campers, we have decided to build a two-story facility inside the hockey dome. We are going to be using the area that is closest to girls' side to build a 2,500 sq. foot, two story modern fitness studio. On the second floor there is going to be a room outfitted with spin bikes (yes that's a new activity this year!). We are also going to have a yoga studio that can be used for several things. The first floor is going to be one large gym that is going to have all the workout equipment that our campers need to for a complete training process. We will still be having all of our outdoor cardio activities, but this will give us some new programs and indoor space. What's that you ask? Yes, it is going to be air conditioned!!!

Fall Foliage

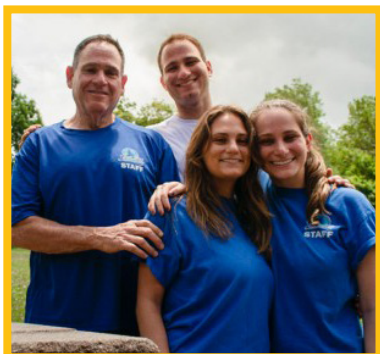

We want to thank everyone who joined us for Fall Foliage! We enjoyed meeting our new camp families and always love reuniting with old! The weather did not stop anyone from having a great day! Our pumpkin scented candles, and creative pumpkin arts and crafts projects were a smash hit that were only topped by making delicious caramel apples. We hope everyone who went on a tour had a wonderful experience getting to know camp and seeing some of the improvements we made this year! The best part is, summer 2020 is fast approaching! Happy Fall!

Then. Now. Always!
