## WINTER WARM UP WRAP UP!

WINTER 2022 EDITION

As the weather got colder and the days became darker, our camp family rejoiced and created some summer sparkle with the Winter Warm-Ups! Campers had the winter thrill of coming together to create some camp spirit and compete for special prizes within their division!

Our campers tested their metal against some Slido Trivia, used their movie knowledge to complete the quotes, and even had to dress their beloved family members as snowmen! There were plenty of Amazon and Starbucks gift cards flying around with some Xbox points being spent on Fortnite skins! One thing is for sure, our Junior and Middle campers will thoroughly enjoy their canteen pizza parties!

We can't wait to see you at the Spring Picnic in just a few short months! Summer '22 is just around the corner!

THE OFFICIAL NEWSLETTER OF CAMP LINDENMERE

# A NOTE FROM THE ***GARFINKELS!***

Dear Campers, Parents & Families,

Happy 2022!! Every new year, on New Year's Day, it is the greatest feeling because it means that camp is officially THIS year! All year, we count down the days until we can be back in the beautiful Poconos, at our summer home in 18332. We count down the days until new and old friends can come together, until we can learn and grow in our favorite activities, until we can get to spend time with new and returning counselors, and until we can be together as one Lindenmere family again!

However, for now, Camp will continue to hibernate under a beautiful blanket of snow until it is awakened by the laughter and cheers of all our campers! Although it is quiet at camp right now, we are busy building and preparing for the summer ahead.

We've broken ground on the soon-to-be Lindenmere Innovation Center and Lindenmere Fitness and Wellness Center; we've measured spaces for the new Gymnastics equipment that is currently being boxed up (big boxes!) and sent our way; we've secured our new ropes course features; and our team at camp counts down the days until you can experience it all!

We want to give a warm Lindenmere welcome to the new campers and counselors that will be joining us for this summer... Get ready, because we can guarantee you are in for the BEST SUMMER OF YOUR LIFE!!! And, to our returning campers and counselors, we can't wait for the BEST SUMMER EVER!!! Camp is going to be here before we know it!!!

The excitement is starting to build and build... Summer 2022 - we are ready!!!

With Love,

*Mitch, Hayley and Kyle*

# NEW FOR '22!

Coming to Lindenmere this summer are a multitude of new buildings and additions to existing programs. Leading the charge is our **Lindenmere Innovation Center**, currently under construction, which will be home to our STEM program, Robotics, Stop-Motion Animation, 3D printing, and many more programs to come! If that's not enough, the 4400sqft **Lindenmere Fitness & Wellness Center** will be completed by summer. It will house a range of resistance and cardio machines, as well as free weights for strength training. Are you ready to feel the burn?!

...And there's more! Down at **baseball**, we will have two foul poles installed with an updated infield and warning track. So be ready to elevate your game over the summer.

...But wait there is still more!! Our **Outdoor Adventure** course has been expanded to include three brand new high and low ropes challenges from our 50ft climbing tower. Some of the new elements include a double cargo net, lily pads, ring traversing, and swinging logs. All with state-of-the-art safe rolling belay systems. Meaning less time belaying and more time to hang out in the trees.

Did somebody say **Gymnastics**? That's right. There will be new equipment to learn and train on to further develop your skills over the summer. Look out for the new springboard, mini-tramp, T-trainer, resi pit, fake vault, pac-mans, new safety mats, and more. Gymnastics will have you flipping for days!!

# WINTER SNOW OR SAND VOLCANO!

APPROVED

## Supplies:

Snow/Sand  
Baking soda  
Warm water  
Dish soap  
Vinegar  
Food coloring of any color!  
Tall cup or plastic bottle

## Directions:

In a tall cup or plastic bottle, add 1 tablespoon of dish soap, fill halfway with baking soda and mix in 1/4 cup of warm water. If you use a bottle with a more narrow opening, you may get your lava to shoot up a bit into the air!

Add several drops of red food coloring in the cup (the more food coloring the darker the lava). Of course you can experiment with your own colors too.

Build a snow volcano and place the cup inside the volcano. Then make sure the snow is packed around the cup and you cannot see the top of the cup. Just make sure to leave a hole in the top for the lava to come out.

Now pour the vinegar into the top of the volcano and watch it erupt (the more vinegar the bigger the eruption). Go ahead and repeat as desired with more vinegar and baking soda.

Tag us with your  
Volcano!
